Curriculum Vitae

Akshay Singh

Global Lead Engagement Manager | AI, Cloud & Partner Ecosystem

📍 Noida, India | Open to Global Relocation — EMEA · Americas · APAC
📧 akshaaysingh@gmail.com | linkedin.com/in/akshaysingh-cloudai

AI STRATEGY | CLOUD TRANSFORMATION | MICROSOFT ECOSYSTEM | PARTNER GTM | OPEN TO RELOCATION

Executive Summary

> Strategic leader with six years at the intersection of enterprise AI adoption, cloud transformation, and commercial architecture — delivering measurable financial outcomes rather than stalled pilots.

2,200+

Client Engagements

Delivered across 20+ industries and all 14 Microsoft global regions

$44M+

Programme Revenue

Generated across EMEA, Americas, and APAC regions

30+

Team Built

Scaled from a two-person start across three global regions

6x

Partner of Year

Microsoft Partner of Year finalist — six consecutive years (2020–2025)

Advises C-suite and board stakeholders on transformation strategy, governance design, and AI investment prioritisation. Combines deep Microsoft ecosystem expertise with a systems-thinking approach — ensuring technology investments translate into measurable financial outcomes. Grew EMEA into the company's primary revenue region (~60% of annual revenue) and supported company growth from ~46 to 250+ employees (~5x growth).

Core Competencies

A cross-functional skill set spanning strategic advisory, commercial architecture, and deep technical expertise across the Microsoft ecosystem.

Transformation Advisory

- Revenue Architecture
- AI Adoption Strategy
- Governance & Risk Design

Stakeholder Engagement

- C-Suite & Board Advisory
- Programme Delivery at Scale
- Change Management

Partner Ecosystem GTM

- Pre-Sales & Pipeline Leadership
- Microsoft Partner Programmes
- Global Team Building

Microsoft Technical

- Azure OpenAI / Copilot / Fabric
- Cloud Migration & Modernisation
- Azure Solutions Architecture

Professional Experience

2019 – PRESENT

Global Lead Engagement Manager — AI, Cloud & Partner Ecosystem

UnifyCloud | Noida, India | Global remit: EMEA, Americas, APAC

UnifyCloud is a Microsoft-nominated ISV delivering AI, cloud migration and modernisation programmes globally.

Strategic Impact

- Architected and delivered 2,200+ client engagements across 20+ industries — representing 61% of total organisational output and ~USD 44M+ in programme revenue
- Scaled EMEA from ~10–12 engagements at entry to the company's primary revenue region (~60% of annual revenue)
- Built a 30+ person engagement team across EMEA, Americas, and APAC from a two-person start
- Coached Microsoft's own field sales teams and partner ecosystem across all 14 Microsoft global regions

Advisory & Governance

- Advised C-suite stakeholders at Shell, BMW, Mercedes-Benz, Continental, ABB, Manchester United, and Government of Finland
- Designed programme governance frameworks reducing stalled deployments and accelerating time-to-value
- Translated complex technology investment cases into board-level narratives — repositioning migrations as competitive differentiation

Commercial Architecture

- Operated across four concurrent revenue streams: Microsoft Programme, Partner Programme (TDSynnex, SoftwareOne), Direct SOW, and proprietary product development
- Nominated Microsoft Partner of Year for six consecutive years (2020–2025); nominated alongside NVIDIA in 2024 and 2025
- Supported company growth from ~46 to 250+ employees (~5x growth)

Career Timeline

A decade of progressive leadership across technology, partner ecosystems, and enterprise advisory.

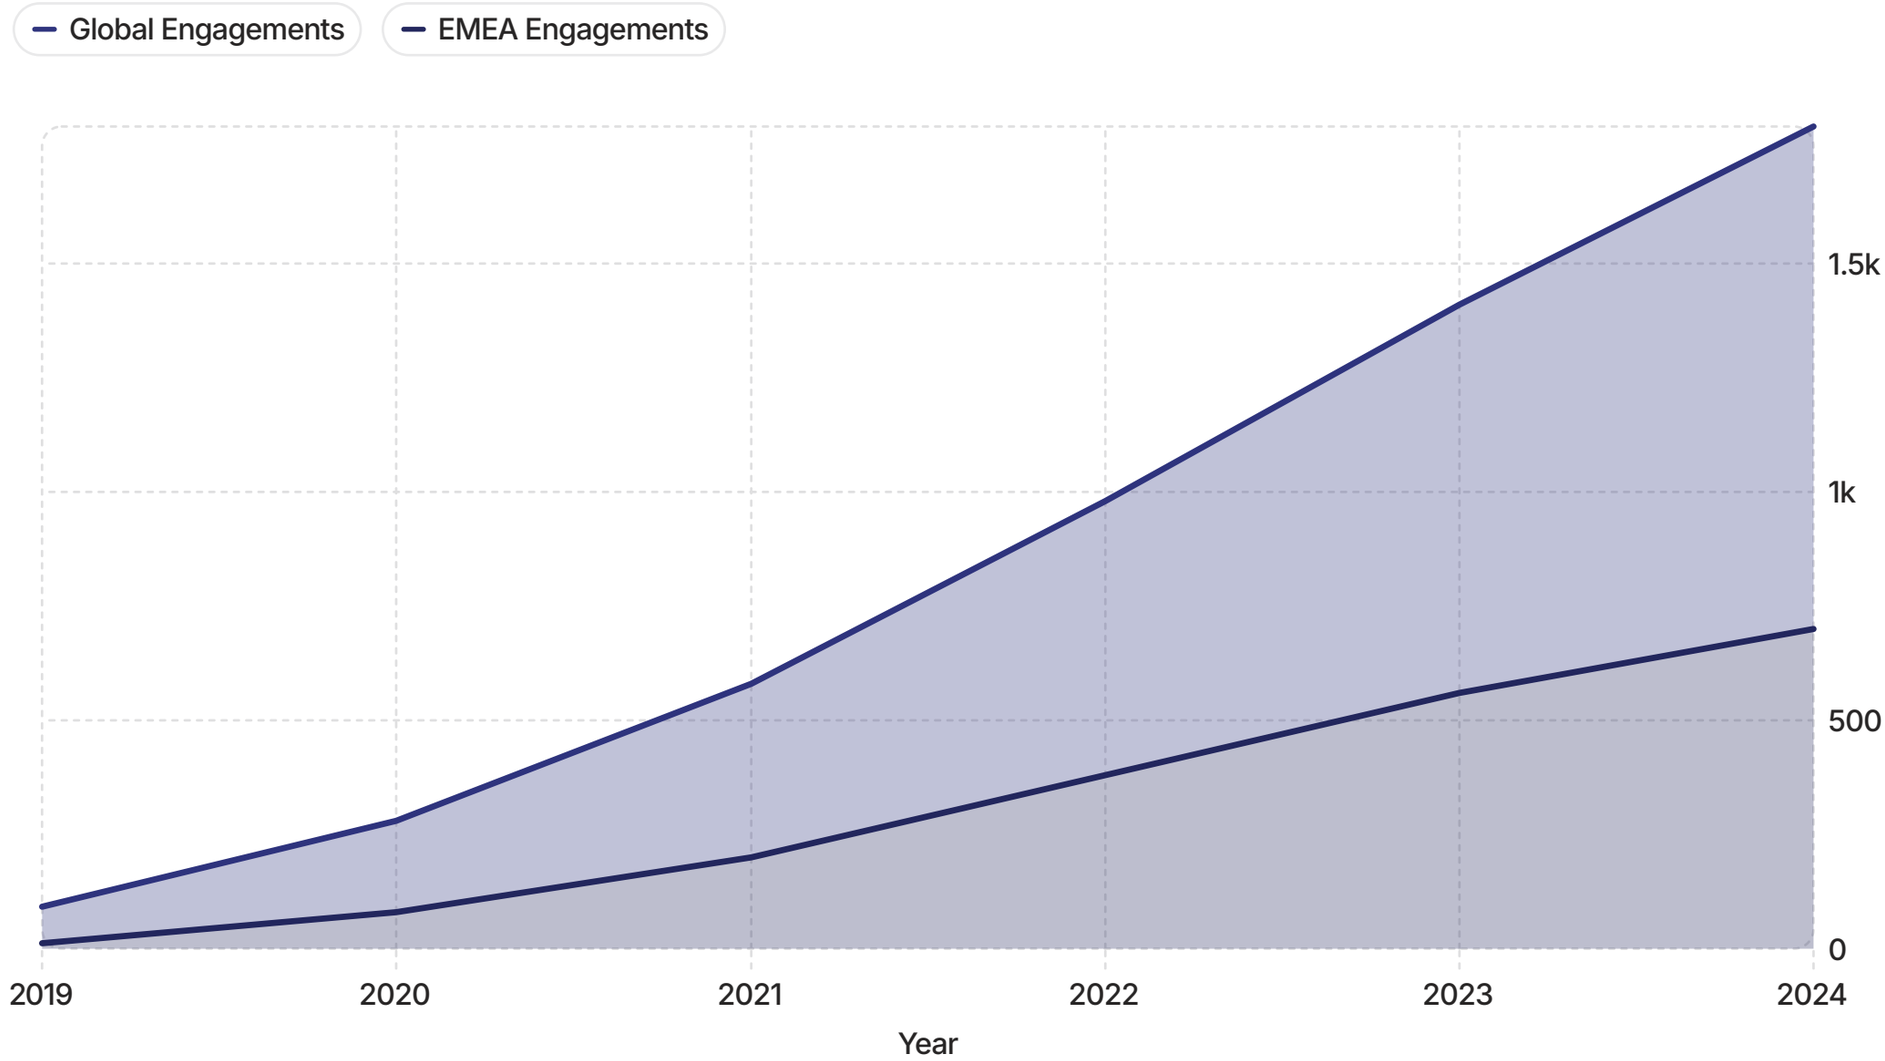
Revenue Growth at UnifyCloud

Illustrative trajectory of EMEA engagement volume and revenue contribution under Akshay's leadership — from initial scale-up to primary revenue region status.



EMEA grew from approximately 10–12 engagements at entry to representing ~60% of annual company revenue — becoming the dominant region within five years of Akshay's leadership.

Client & Industry Footprint

Trusted by global enterprises across regulated and complex industries — from automotive OEMs and energy majors to government bodies and professional sports organisations.

Automotive & Manufacturing

BMW · Mercedes-Benz · Continental · ABB — advising on cloud migration strategy, AI adoption roadmaps, and governance frameworks at board level.

Energy & Government

Shell · Government of Finland — delivering transformation programmes with regulatory compliance, FinOps discipline, and enterprise-scale change management.

Healthcare & Financial Services

Medcan · Canopius — supporting AI-enabled modernisation in highly regulated environments with robust data governance and security architecture.

Sports & Other Sectors

Manchester United and 20+ industries globally — spanning aviation, retail, and professional services across all 14 Microsoft global regions.

Geographic Reach: EMEA · Americas · APAC — All 14 Microsoft Global Regions

Microsoft Ecosystem Expertise

Deep, certified expertise across the full Microsoft cloud and AI stack — from infrastructure migration to next-generation AI workloads.

Azure Migration

App & Database Modernisation at enterprise scale

Azure OpenAI & Copilot

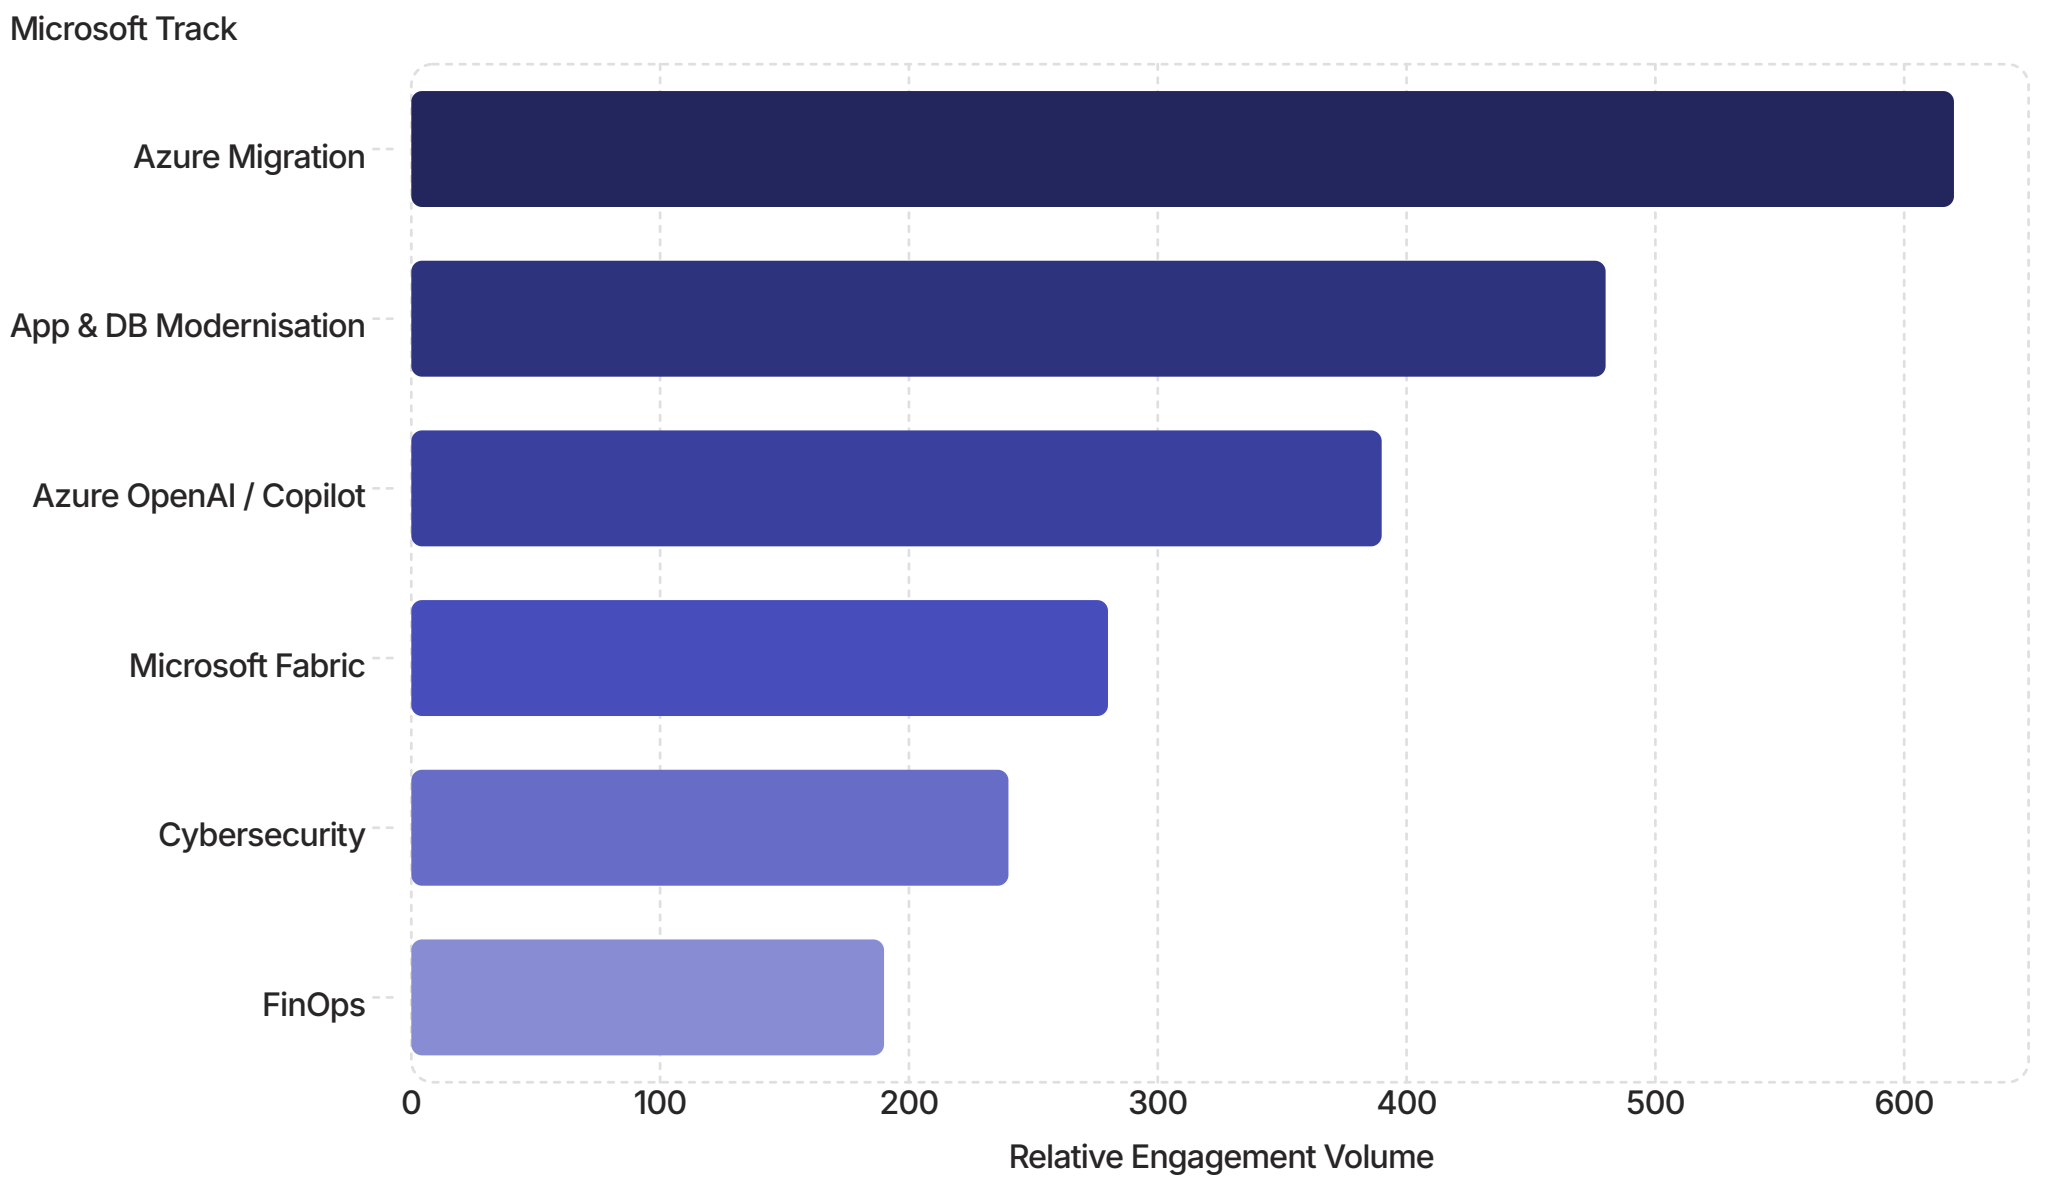
Enterprise AI adoption strategy and deployment governance

Microsoft Fabric

Unified analytics and data platform modernisation

Cybersecurity & FinOps

Risk governance, cost optimisation, and compliance frameworks



Education & Certifications

Academic Qualifications

MBA
