Curriculum Vitae · Hyperscaler Roles

Akshay Singh

Global Lead Engagement Manager | AI, Cloud & Partner Ecosystem

📍 Noida, India · Open to Global Relocation — EMEA · Americas · APAC
📧 akshaaysingh@gmail.com · linkedin.com/in/akshaysingh-cloudai

AZURE EXPERT | AI LEADER | GLOBAL GTM | PARTNER OF YEAR 2020–2025

Executive Summary

> Senior GTM and pre-sales leader with six years scaling AI and cloud adoption programmes across the Microsoft ecosystem globally — delivering measurable commercial impact at hyperscaler scale.

2,200+

Client Engagements

Delivered across all 14 Microsoft global regions

$44M+

Programme Revenue

Generated across four revenue streams globally

30+

Person Team Built

Scaled from a two-person start across EMEA, Americas, APAC

6

Partner of Year Noms

Consecutive Microsoft nominations 2020–2025

Deep expertise across **Azure Migration, App Modernisation, Azure OpenAI, Copilot, and Fabric**. Nominated alongside NVIDIA in 2024 and 2025 for AI programme excellence. Proven ability to coach hyperscaler field teams, align partner ecosystems, and translate enterprise AI complexity into commercial pipeline and closed revenue.

Core Competencies

A cross-functional skill set spanning cloud strategy, AI adoption, pre-sales leadership, and global team building — purpose-built for hyperscaler GTM roles.

Cloud GTM Strategy

Azure OpenAI · Copilot · Microsoft Co-sell Programmes · Pipeline Architecture

Pre-Sales Leadership

Partner Ecosystem Development · Solution Positioning · Technical Advisory

Enterprise AI Adoption

Azure OpenAI · Copilot · Fabric & Data Platforms · Customer Engineering

Global Team Building

Field Enablement · Hiring Frameworks · Performance Governance · 5x Growth

Azure Migration & Modernisation

App & Database Modernisation · FinOps · Cybersecurity · SMC & Enterprise

Professional Experience

2019 – PRESENT

Global Lead Engagement Manager — AI, Cloud & Partner Ecosystem

UnifyCloud · Noida, India · Global Remit: EMEA, Americas, APAC

UnifyCloud is a Microsoft-nominated ISV and Partner of Year finalist — delivering AI, cloud migration and modernisation programmes across enterprise and SMC segments globally.

GTM & Pipeline Leadership

- Owned and scaled GTM execution across four revenue streams: Microsoft Programme (Azure OpenAI, Copilot, Fabric, Migration), Partner Programme (TDSynnex, SoftwareOne), Direct SOW, and proprietary IP
- Delivered 2,200+ engagements across 20+ industries — 61% of total organisational output — generating ~USD 44M+ in programme revenue
- Scaled EMEA from ~10–12 engagements at entry to company's primary revenue region, contributing ~60% of annual revenue

Microsoft Ecosystem & Co-sell

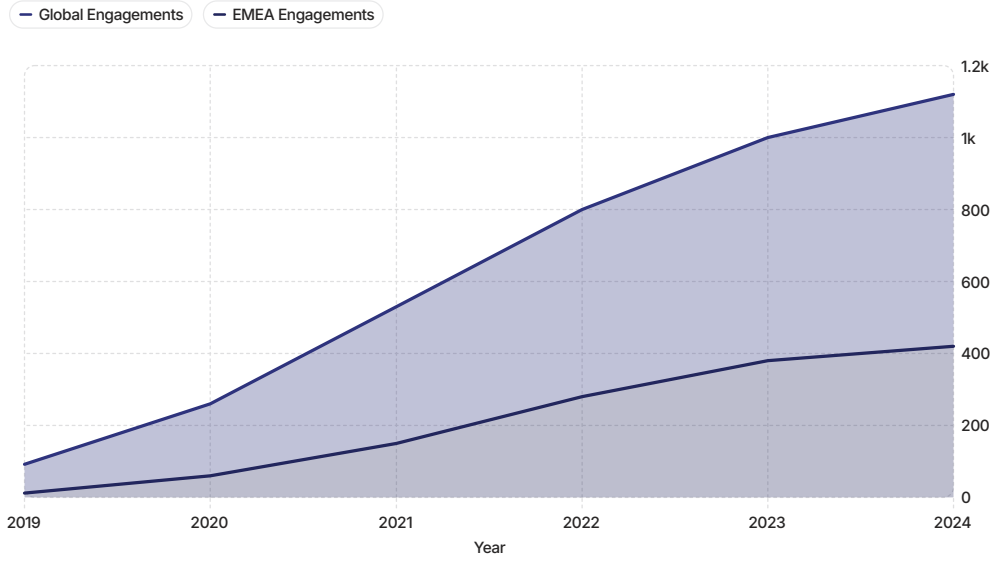
- Coached Microsoft's own field sales teams and partner ecosystem on cloud adoption methodology across all 14 Microsoft global regions
- Delivered across full Microsoft cloud portfolio: Azure Migration, App & Database Modernisation, Azure OpenAI, Copilot, Microsoft Fabric, Cybersecurity, and FinOps
- Nominated Microsoft Partner of Year six consecutive years (2020–2025); nominated alongside NVIDIA in 2024 and 2025 for AI programme excellence

Team & Capability Building

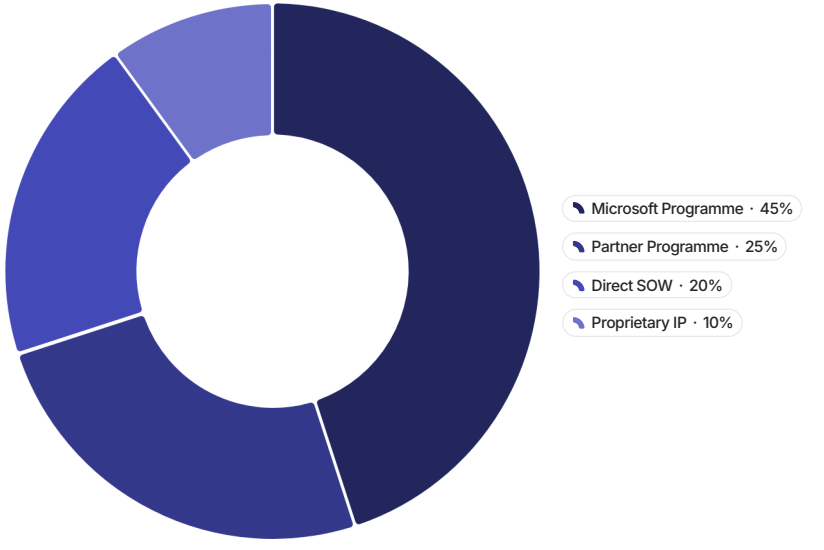
- Built a 30+ person engagement team across EMEA, Americas, and APAC from a two-person start — including hiring frameworks, playbooks, and performance governance
- Supported company growth from ~46 to 250+ employees (~5x) through revenue generation, ecosystem development, and team scaling

Revenue & Impact at a Glance

EMEA growth trajectory and revenue contribution across UnifyCloud's global engagement model.



EMEA scaled from ~12 engagements at entry to the company's primary revenue region — now contributing ~60% of annual revenue.



Four distinct revenue streams managed simultaneously — Microsoft Programme remains the dominant channel at ~45% of total output.

Earlier Career

A progressive track record across partner operations, financial services, and business development — building the commercial and analytical foundations for global GTM leadership.

1

Business Analyst — Partner Programmes

Tech Data Europe (now TD Synnex) · 2016–2019 · 19 European Markets

- Managed partner programme operations across 150+ partners and 19 countries, maintaining 95%+ SLA compliance
- Developed reporting frameworks used by senior leadership to track programme performance and commercial pipeline
- Identified process improvements reducing partner onboarding time and improving programme renewal rates

2

Process Advisor — UK Collections

Barclays · 2015–2016 · United Kingdom

- Maintained NPS consistently above 9 through structured, empathy-led advisory engagement
- Identified workflow improvements adopted across the wider team

3

Business Development Executive

Stack-E Solutions · 2013–2015

- Grew commercial pipeline by 20% and secured 10 new strategic partnerships within 18 months

Academic Qualifications

MBA

Liverpool John Moores University · Completed

B.Tech — Information Technology

Dr. A.P.J. Abdul Kalam Technical University · Completed

Professional Certifications

Azure Solutions Architect Expert

Microsoft Certified · **Active**

AI Engineer Associate

Microsoft Certified · **Active**

PRINCE2 Foundation & Practitioner

AXELOS · 2017

ITIL V4 Foundation

AXELOS · **Active**

Claude Certified Architect — Foundations

Anthropic · **In Progress**

Client & Industry Footprint

Delivered enterprise-grade AI and cloud programmes across marquee global clients spanning six continents and 20+ industries.

Automotive & Energy

BMW · Mercedes-Benz · Continental · ABB · Shell
Complex enterprise migrations and AI adoption programmes across regulated, high-compliance environments.

Healthcare & Financial Services

Medcan · Canopius
Data modernisation, Fabric deployments, and AI-led transformation in highly regulated sectors.

Government & Public Sector

Government of Finland
Sovereign cloud strategy, Azure migration, and public sector AI readiness programmes.

Sports & Entertainment

Manchester United
Digital transformation and cloud modernisation for one of the world's most recognised sports brands.

Geographies: EMEA · Americas · APAC — All 14 Microsoft Global Regions | **Segments:** Enterprise · SMC · SMB | **Industries:** 20+ globally

Microsoft Technology Coverage

Full-stack coverage across the Microsoft cloud portfolio — from infrastructure migration to frontier AI — enabling end-to-end advisory across the hyperscaler sales cycle.

Azure Migration

IaaS lift-and-shift, rehost, replatform strategies across enterprise and SMC

App & DB Modernisation

Containerisation, microservices, SQL/NoSQL modernisation on Azure

Azure OpenAI & Copilot

Enterprise AI adoption, Copilot deployment, LLM integration at scale

Microsoft Fabric

Unified analytics, data lakehouse, real-time intelligence and Power BI

Cybersecurity

Microsoft Sentinel, Defender suite, Zero Trust architecture advisory

FinOps

Cloud cost governance, Azure spend optimisation, tagging and chargeback frameworks

Why Akshay Singh for a Hyperscaler Role

> "Nominated Microsoft Partner of Year for six consecutive years — including alongside NVIDIA in 2024 and 2025 for AI programme excellence."

Commercial Acumen

USD 44M+ in programme revenue. Proven GTM execution across four revenue streams and all 14 Microsoft global regions.

Ecosystem Depth

Coached Microsoft field teams directly. Deep co-sell experience with TDSynnex, SoftwareOne, and NVIDIA-aligned AI programmes.

Scale & Leadership

Built a 30+ person global team from scratch. Supported 5x company headcount growth. EMEA scaled to 60% of annual revenue.

Open to Global Relocation

Currently based in Noida, India. Available for immediate relocation to **EMEA · Americas · APAC** for the right hyperscaler opportunity at Microsoft, Google Cloud, or AWS.
